

JOSHUA BOATENG NKETIAH

Kumasi, Ghana | joshuaboatengnketiah@gmail.com | +233 596 659 350 [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY Detail-oriented Full-Stack Developer specializing in building high-performance, responsive web applications for all devices. Experienced in modern JavaScript frameworks, state management, and end-to-end software architecture. Passionate about solving complex real-world problems through scalable technology solutions, clean code, and intuitive user interfaces. Open to collaborative, remote opportunities and actively developing production-ready platforms.

TECHNICAL SKILLS

- **Languages:** JavaScript, C++, Python, HTML5, CSS3
- **Frontend Development:** React.js, State Management (Redux/Context API), Responsive Web Design, UI/UX Implementation (FontAwesome)
- **Backend Development:** Node.js, REST API Architecture, Server-Side Routing
- **Databases:** SQL, Relational Database Design, Data Normalization
- **Cloud & Infrastructure:** Cloud Computing Concepts, Content Delivery, Networking Basics
- **Tools & Workflows:** Git, GitHub, VS Code, Linux Command Line, Agile Collaboration, Performance Optimization

PROJECT EXPERIENCE

Student Accommodation (Hostel/Homestay) Booking System | *Full-Stack Developer* * Architected and developed a comprehensive booking platform utilizing modern JavaScript frameworks and responsive UI principles to ensure seamless functionality across all devices.

- Implemented server-side logic and robust REST API endpoints using Node.js to handle complex user data and booking requests.
- Integrated state management solutions to efficiently process user sessions and real-time availability updates.
- Conducting rigorous API testing and debugging to ensure system reliability and secure data transmission.

Josh Real Estate Platform | *Frontend Engineer & Database Designer*

- Spearheaded the end-to-end development of a dynamic real estate application featuring responsive property listings and interactive user interfaces.
- Designed and deployed efficient relational database structures using SQL to store, manage, and retrieve complex property and client data.
- Applied advanced data normalization principles to optimize backend database efficiency and reduce query load times.
- Managed version control and documented project iterations collaboratively using Git and GitHub.

Professional Developer Portfolio | *Frontend Developer*

- Engineered a high-performance, mobile-first portfolio website to showcase technical projects and software engineering capabilities.
- Utilized clean, maintainable HTML and CSS methodologies alongside modern iconography (FontAwesome) to create an engaging user experience.
- Optimized frontend performance metrics, including image lazy-loading and code-splitting, for maximum accessibility and speed.

EDUCATION

Bachelor of Science in Information Technology (BSc IT) Kwame Nkrumah University of Science and Technology (KNUST) - Kumasi, Ghana

- **Expected Graduation:** November 2029
- **Relevant Coursework:** Database Systems, Computer Networking, Software Development Fundamentals, Cloud Computing Concepts, Calculus

CERTIFICATIONS & ACHIEVEMENTS

- **HackerRank Verified Software Engineer**
- **HackerRank Verified SQL (Advanced)**
- **HackerRank Verified Node.js & REST API (Intermediate)**
- **HackerRank Verified Problem Solving (Intermediate)**
- **Fundamentals of Responsible AI:** Completed advanced coursework on ethical AI implementation and modern technology standards (March 2026).
